

Cole has worked in the consulting industry for the past 20 years and has worked for Underwood for over 10 of those years. He lives with his family in Brentwood, NH and they enjoy all types of outdoor pursuits including: hiking, skiing, fishing, kayaking, biking, maple sugaring, etc. He coaches his Town recreation department soccer, T-ball, and baseball teams, though he has to admit that the kid's athletic abilities in those areas are starting to exceed his own. When he can sneak away from his other commitments, you will sometimes see Cole fly fishing for stripers around Portsmouth and he usually takes a steelhead fly fishing trip to western NY each winter. Cole's love of the outdoors led him to study Hydrology and Civil Engineering and this connection with the natural world helps Cole provide our clients with practical and effective engineering solutions
